Community mental health services (CMHS), also known as community mental health teams (CMHT) in the United Kingdom, support or treat people with mental disorders (mental illness or mental health difficulties) in a domiciliary setting, instead of a psychiatric hospital (asylum). The array of community mental health services vary depending on the country in which the services are provided.

A mental disorder, also called a mental illness or psychiatric disorder, is a behavioral or mental pattern that causes significant distress or impairment of personal functioning. Such features may be persistent, relapsing and remitting, or occur as a single episode. Many disorders have been described, with signs and symptoms that vary widely between specific disorders.

Introduction. The role of social and emotional deprivation in the pathogenesis of mental health problems is a long-standing focus of psychiatry. 1 One hypothesis, held by many to be self-evident, is that such adverse exposures have an especially pernicious and persistent effect when experienced early in life during sensitive periods of development. 2 Although animal studies strongly support ...
