

methods in computational physics pdf

Journal of Computational Physics has an open access mirror journal Journal of Computational Physics: X, sharing the same aims and scope, editorial team, submission system and rigorous peer review. The Journal of Computational Physics focuses on the computational aspects of physical problems. The scope of the Journal is the presentation of new significantly improved techniques for the numerical ...

Title: vFoam: a new set of volume of fluid solvers for turbulent isothermal multiphase flows

Computational Physics authors/titles recent submissions

Computational chemistry is a branch of chemistry that uses computer simulation to assist in solving chemical problems. It uses methods of theoretical chemistry, incorporated into efficient computer programs, to calculate the structures and properties of molecules and solids. It is necessary because, apart from relatively recent results concerning the hydrogen molecular ion (dihydrogen cation ...

Journal of Computational Physics - Elsevier

Computational fluid dynamics (CFD) is a branch of fluid mechanics that uses numerical analysis and data structures to analyze and solve problems that involve fluid flows. Computers are used to perform the calculations required to simulate the free-stream flow of the fluid, and the interaction of the fluid (liquids and gases) with surfaces defined by boundary conditions.

Methods and Applications in Fluorescence now offers an accepted-manuscript service, meaning your research can be downloaded and cited within 24 hours of acceptance. All articles accepted for publication in Methods and Applications in Fluorescence will benefit from this service, however, authors are able to opt-out during the submission process should they want to.
