The Common Core State Standards for Mathematics (CCSSM) have reorganized the geometry curriculum in grade 8 and high school. Because there are at present very few (if any) ready references for such a reorganization, this document is being offered as a stopgap measure.

In contrast, there is a seamless transition from the geometry of grade 8 to high school geometry in the CCSSM. The concepts of rotation, reflection, translation, and dilation taught in grade 8|basically on an intuitive level|become the foundation for the mathematical development of the high school geometry course.
