The rate of initiation of breastfeeding for the total US population based on the latest National Immunization Survey data are 75%. 11 This overall rate, however, obscures clinically significant sociodemographic and cultural differences. For example, the breastfeeding initiation rate for the Hispanic or Latino population was 80.6%, but for the non-Hispanic black or African American population ...

1. Introduction. Nano medicine, as a start-up of a new auspicious discipline in the 21st century, is simply renowned as the nanotechnology utilization to get enhancements in healthcare and improvements in pharmaceuticals (Langer and Weissleder, 2015). This encompasses the nano-scale particles utilization, which probably diverge from the larger scale particles of the same materials used for nano ...

Life is a characteristic that distinguishes physical entities that have biological processes, such as signaling and self-sustaining processes, from those that do not, either because such functions have ceased (they have died), or because they never had such functions and are classified as inanimate. Various forms of life exist, such as plants, animals, fungi, protists, archaea, and bacteria.

This evidence-based clinical practice guideline is a revision of the 2004 acute otitis media (AOM) guideline from the American Academy of Pediatrics (AAP) and American Academy of Family Physicians. It provides recommendations to primary care clinicians for the management of children from 6 months through 12 years of age with uncomplicated AOM.
