

the wooden sea cranes pdf

A crane is a type of machine, generally equipped with a hoist rope, wire ropes or chains, and sheaves, that can be used both to lift and lower materials and to move them horizontally. It is mainly used for lifting heavy things and transporting them to other places. The device uses one or more simple machines to create mechanical advantage and thus move loads beyond the normal capability of a human.

Containerization is a system of intermodal freight transport using intermodal containers (also called shipping containers and ISO containers). The containers have standardized dimensions. They can be loaded and unloaded, stacked, transported efficiently over long distances, and transferred from one mode of transport to another—container ships, rail transport flatcars, and semi-trailer trucks ...

The Hermes is a Deep Sea Salvage tug from the early 1900's. I used a CNC machine to cut out the hull formers for this project - a short video of the CNC machine in action is Here - pretty boring if you have seen a CNC machine before, pretty interesting if you have not.. The hull build has been fairly easy, but keeping everything in line has been difficult.
